

AMIRA GUCHER - BLACKMAN

Full-Stack Web Developer

Personal Profile

Prior to studying at the School of Code my studies evolved around Art and Design, and then Psychology. During the bootcamp I found a true passion for coding which has only grown over time. I have experience of working with people from all walks of life and have gained the ability to work within a team and in an agile framework. Through the School of Code, I have developed both leadership and team work skills and the ability to problem solve and come up with solutions. I am committed, hardworking, pro-active and passionate and am ready to contribute to a company's successes.

Recent Experience

Recently graduated from the School Of Code bootcamp. During the bootcamp I was introduced to a wide range of programming utilities and languages which has given me the confidence and understanding of a wide variety of areas within tech. I have gained the ability to work within an agile framework and have experience working within a tight time schedule and under pressure.

- Training in agile development
- Weekly Hackathons and presentations
- Trained in a range of technologies (as shown in skills section)
- Experience with leadership and project management
- Experience with working within a team successfully
- Advanced design skills with Figma and Miro
